

## **United Nations**

The position is located in the Multimedia Resources Unit of the News and Media Division at the United Nations. The mandate of MRU is to provide audiovisual library and archival services and distribute multimedia contents to internal and external professional clients. The Unit also provides design, development, and technical support for multimedia websites. The unit is seeking interns interested in gaining professional, hands-on experience with multimedia collections, specifically photo, film, video and audio materials.

The internship is for a minimum of two months with a possibility for extension. The internship is unpaid and full-time. Interns work five days per week (35 hours) under the supervision of the Chief of the Multimedia Resources Unit.
