

Art Partner

Art Partner is looking for an intern for their digital archive department. The position will require extensive keywording according to a controlled vocabulary as well as the organization of digital files. The ideal candidate enjoys working with fashion photography and is an efficient, organized and self-motivated individual who understands the importance of consistency and is thorough when taking on a keywording project.

Our perfect candidate will be someone already in a library science program, who understands that organizing can be tedious work but necessary to maintain order.

The intern would work between 20-30 hours a week for a period of 3-6 months. The position is paid.

Interested parties should send a statement of interest to Nicole Sherry: NSherry@artpartner.com

About the company
www.artpartner.com

Art Partner is the leading artists management and creative content agency with offices in New York, London and Paris.
