

Cold Spring Harbor Laboratory Library & Archives

The Cold Spring Harbor Laboratory Library & Archives offers internship opportunities for MLS/MLIS candidates. Students may apply for the program by contacting Rhonda Veros at the email address or phone number below. An initial on-site interview will be scheduled with the Executive Director of the Library & Archives, Mila Pollock, who will discuss the candidate's areas of interest and experience. The selection of candidates is based on an assessment of their level of motivation and ability to succeed as a librarian or archivist. The program consists of mentored projects with current CSHL Librarians or Science Informationists in the Library and/or Archives. Our internship program does not have a formal application process. Candidates may contact me at any time throughout the year.

Please send a resume with cover letter detailing areas of interest and experience by email or mail to:

Rhonda Veros
Assistant to the Executive Director
