

The American Numismatic Society

The Library of the American Numismatic Society is offering course-credit and volunteer internship opportunities for fall 2017.

Interns will gain experience cataloging in MARC and processing materials using the ANS's Koha ILS. They will use AACR2 and RDA standards while processing and cataloging materials, which include pamphlet files, auction catalogs, individual journal articles, monographs, and other items. Interns may also have the opportunity to work with rare books dating back to the 16th century and materials in our Archives.

Interested applicants please send a message describing interests and/or a resume to library@numismatics.org.
