

[International School of Brooklyn](#)

The [International School of Brooklyn](#) seeks a library science student for an internship for the 2017-2018 school year (one or both semesters).

Our library is relatively new and our trilingual collection contains over 12,000 volumes. Students from Nursery school through 5th grade have library classes once a week (16 classes.) Middle school students have open hours and the librarian pushes into classes. Families use the library after school hours. We use Follett's Destiny and you can see our [library and catalog here](#).

About ISB: ISB is an independent, vibrant N-8 International Baccalaureate (IB) and language immersion school (French and Spanish) located in Carroll Gardens, Brooklyn. ISB is accredited by the French and Spanish Ministries of Education and a provisional member of NYSAIS. ISB is an IB authorized Primary Years Programme (PYP) school and Middle Years Programme (MYP). We have around 320 students.

About Internship: This is an unpaid internship although you will be eligible for credit. You'll be a part of everything solo school librarianship involves: interacting with students, teachers, admin, parents and nannies to cataloging, collection development, promoting the library's resources, programming, lesson plans, our multilingual book fair, daily maintenance, and more. Cataloging volumes in French and Spanish is a good skill to learn.

About me: My name is Maria Falgoust and I am a certified school media specialist. I'm passionate about my job and look forward to sharing my experience.

To Apply: Please email me a cover letter and resume at mfalgoust@isbrooklyn.org if you are interested.
