

The Patchogue-Medford Library

The Patchogue-Medford Library's Young Adult/Audiovisual Services Department is seeking an intern for the fall and spring semesters. Our library serves a diverse population and provides an excellent experience for an energetic and creative library school student. This internship in our busy public library will include involvement in programming, interacting with teens, working at the reference desk, learning to do basic cataloging and ordering media items. All applicants **MUST** be enrolled in a library school program, and must be doing the internship for class credit. This is an unpaid internship, but an invaluable experience. Please apply by Friday, September 8th: bschwartz@pmlib.org.
