ACADEMIC LIBRARIES

Courses in this plan of study will provide students with an understanding of the library and information services within post-secondary institutions. Aspects of library and information services unique to higher education and current issues in both public and independent institutions will be emphasized through this group of courses. Students may also consider Palmer’s Scholar/Librarian Dual Degree Program at New York University.

HIGHLY RECOMMENDED:

618 - Online Information Retrieval Techniques
744 - Academic and Special Libraries
